# Letter from the Chair

Dear Friends,

Welcome to the Diamonds Do Good Awards! Tonight is especially meaningful as we gather during a milestone year for Diamonds Do Good — celebrating 20 years of impact as an organization.

For two decades, Diamonds Do Good has worked to shine a light on the positive impact of natural diamonds around the world through education, entrepreneurship, and community development. But this mission has never belonged to one organization alone. It belongs to all of you.

Each of you, through your companies, your leadership, and your generosity, helps create meaningful change in natural diamond communities across the globe. Tonight is a celebration of that collective impact — and of an industry that continues to lead with purpose, compassion, and commitment.

We are especially proud to recognize this year's outstanding honorees:

- Anna Martin — GOOD Award for Lifetime Achievement
- Tiffany & Co. — Vanguard of Sustainable Luxury Award
- CD Peacock — Community Impact Award

Congratulations to our honorees, whose leadership and dedication embody the spirit of doing good.

Thank you for being here, for supporting this mission, and for helping us celebrate twenty years of meaningful impact together.

With gratitude,

Peter Engel

# Greetings from Diamonds Do Good

For 20 years, Diamonds Do Good has worked to tell the stories behind natural diamonds: stories of education, opportunity, entrepreneurship, and lasting impact in communities around the world.

What began as a simple idea — *that diamonds can and do create positive change* — has grown into a global mission supported by an industry that believes in giving back.

Tonight, we celebrate not only the remarkable honorees before us, but the collective impact made possible through the generosity, leadership, and commitment of so many in this room.

Thank you for being part of our story — and for helping shape the next chapter of Diamonds Do Good.

# FLAVIANA MATATA FOUNDATION

Diamonds Do Good is pivotal in supporting the Flaviana Matata Foundation to empower young girls in Tanzania, including Shinyanga, Tanzania's diamond-producing community. Through our partnership, we have brought life-changing opportunities to girls who face tremendous barriers such as poverty, child labor, and early marriages. Together in 2024, DDG and FMF impacted the lives of over 12,000 people, with a particular focus on 8,614 adolescent girls. FMF's programs, such as scholarships, menstrual health education, and school hygiene improvements, are helping these girls break free from cycles of hardship and realize their dreams.

The scholarship program supports bright, determined girls on their educational journey. Many have overcome incredible odds thanks to this initiative.

The "Donate a Period" program addresses a significant barrier to attending classes adolescent girls face. The program provides essential menstrual supplies, allowing 500 girls to attend school without fearing missing out due to their periods. With the ongoing construction of new latrines, DDG and FMF are creating safe, dignified spaces for girls to learn and thrive.

By addressing these critical needs, DDG and FMF are not only helping girls pursue their education—we are transforming lives, offering hope, and building a brighter future for entire communities.

Tiffany & Co. celebrates the many facets of love—including love for our planet. We proudly support Diamonds Do Good® and the positive impact of natural diamonds.

# STEPPING STONES INTERNATIONAL

In 2025, Diamonds Do Good introduced a new model of collaboration that identifies high-impact programs for foundations to support. Through this approach, we act as a bridge connecting aligned philanthropic partners with initiatives that empower communities and drive meaningful, measurable change. Finding the Leader Within became the first program selected through this model for Signet's Love Inspires Foundation.

Finding the Leader Within is a transformative leadership development program for young people living near the Jwaneng diamond mine in Botswana. Through mentorship, hands-on learning, and values-based guidance, participants discover their strengths, build confidence, and develop the skills needed to lead with purpose. The program equips youth with a deeper understanding of their own potential empowering them to make informed decisions, pursue opportunities, and become catalysts for positive change within their communities. In partnership with De Beers Group and the Young Diamantaires, we've shifted our focus to address this pressing need. Together, we've committed to funding the completion of a fully equipped science lab and the installation of electricity throughout the school. This crucial infrastructure will empower students with the resources and opportunities they need to pursue science-based education, transforming their learning environment

# AMERICA INDIAN FOUNDATION

Diamonds Do Good has joined hands with the American Indian Foundation to support the children of diamond cutters and polishers—many of whom are migrant workers—in Surat, India. Through AIF's Urban Transition Centers, the initiative provides critical educational support to children facing language and dialect barriers as they transition from rural villages to urban schools. By creating inclusive, nurturing environments, this partnership ensures these students can thrive academically and build brighter futures in the heart of India's diamond industry.

# CONGRATULATIONS TO OUR FRIENDS AT C.D. PEACOCK!

C.D. Peacock's history is long and rich,  
but it is what they have given back that defines them most.

Their generosity runs across every chapter of their story  
and into the lives of the communities they serve.

Congratulations to our friends at C.D. Peacock
